

Q91系列

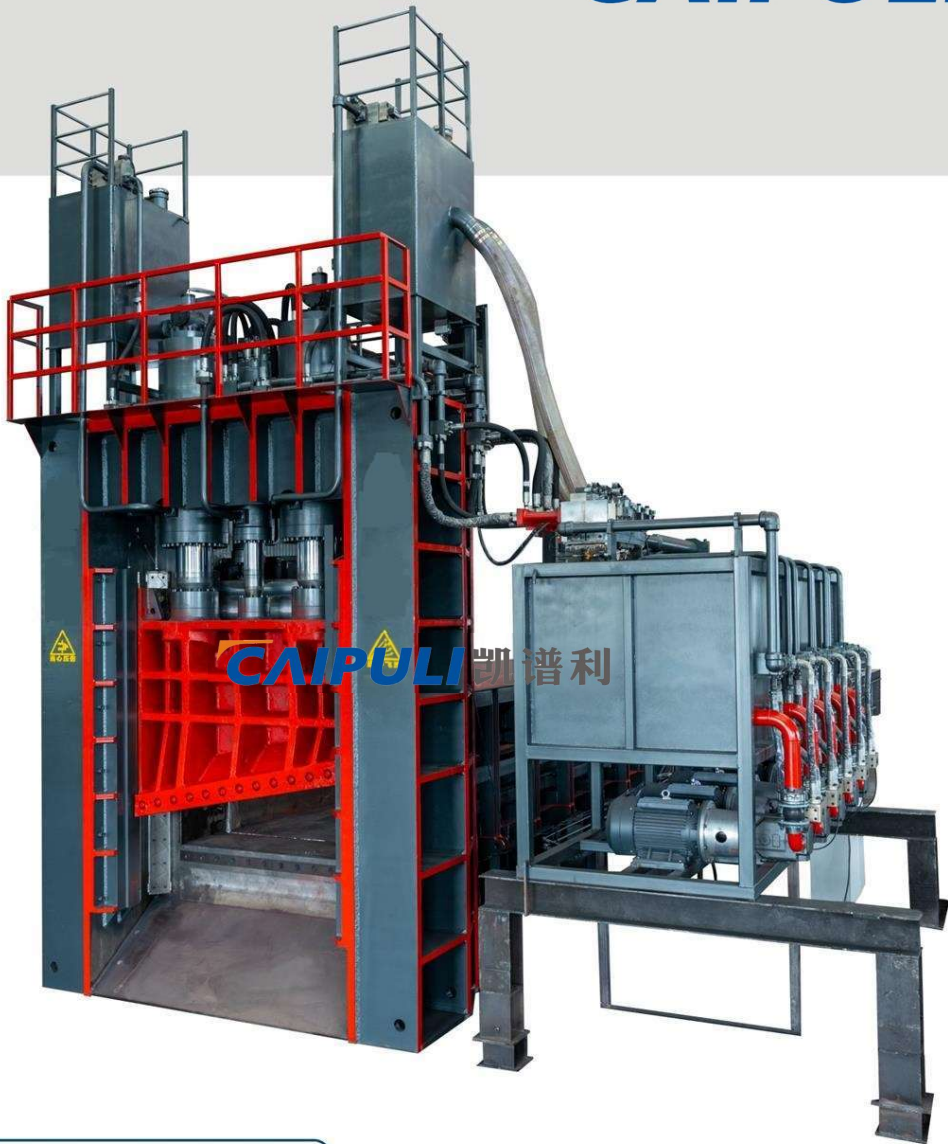

龙门式液压废金属剪断机

Gantry Hydraulic Scrap Metal Cutter

产品概述 Applications

Q91Y重型龙门液压剪切机，适用于废旧金属回收再加工过程中的剪断作业，能将轻薄、散乱的来料经过料箱集中加压后，根据需要的规格剪断；最大剪切单层厚重料80~250mm。具有高效率，低能耗，维护少的特点。

Q91Y heavy-duty gantry hydraulic shearing machine is suitable for cutting operations during the recycling and reprocessing process of waste metal. It can concentrate pressure on light, thin, and scattered incoming materials through the material box, and then cut them according to the required specifications; The maximum shear thickness of a single layer of heavy material is 80-250mm. Featuring high efficiency, low energy consumption, and minimal maintenance.

技术参数 Technical Specifications

型号 Type	剪切吨位 (T) Shear ton	料箱尺寸 (mm) Chamber Size	刀口长度 (mm) Blade Length	电机功率 (Kw) Power
Q91Y-300W	300	5000×1300×600	1400	2×22
Q91Y-350W	350	5000×1400×600	1500	2×30
Q91Y-400W	400	6000×1500×800	1600	2×45
Q91Y-500W	500	6000×1600×800	1700	3×45
Q91Y-600WE	600	8600×2000×900	2100	3×45
Q91Y-630W	630	8000×1800×900	1900	4×45
Q91Y-800W	800	8000×2000×900	2100	4×45
Q91Y-1000W	1000	8000×2000×1450	2100	5×45
Q91Y-1250W	1250	8000×2000×1450	2100	6×45
Q91Y-1600W	1600	8000×2000×1450	2100	4×90
